# THE MARIAN

2020-2021

Mount St. Mary's School

# Mother Mary

Guardian and Patroness of our school

## School Song

Step together, boldly tread,  
Firm each foot, erect each head,  
Fixed in front be every glance,  
Forward to success advance,  
Loyal hearts we nothing dread,  
Like a deer in mountain heather,  
Proud sight, Left Right,  
Steady students step together.

Step together boldly stride,  
Comrades all side by side,  
Brave in act and pure in mind,  
Moving on with steps sustained,  
Thus prepared we care not whether,  
Foes smite, left right  
We shall march and sing together.

Step together self-restrained,  
Let us show how we are trained,  
Ever keen in work and play,  
We grow better every day.  
Raise the flag with joy and pride,  
St. Mary's flag in any weather,  
Proud sight, Left Right,  
Steady students step together.

## St. Patrick

St. Patrick was born in Britain at the end of the fourth century to wealthy parents. When he was 16 years old, Irish raiders attacked his family estate, captured the teenage Patrick, and transported him to Ireland. Like any person taken away from a loving family, Patrick was lonely and afraid. It is at this point in his life that he turned to God for comfort and guidance, becoming a devout Christian, later deciding to return to Ireland to convert the pagan Irish. He was not the first missionary to go to Ireland, but the others before him had not been of Irish descent and so had little success. Patrick was made a bishop and along with two deacons, arrived in Wicklow in 432 A.D. From then on he covered the length and breadth of Ireland spreading the word of Christ.

After years of selfless service, he left for his eternal reward on 17th March, 461. He was later elevated to sainthood as St. Patrick and is the Patron Saint of the Congregation of the Brothers of St. Patrick or the Patrician Brothers as they are popularly known. The Shamrock, a member of the clover family, became a Patrician symbol. It was used by St. Patrick to explain the mystery of the Trinity, its three leaves representing the Trinity (The Father, the Son & the Holy Spirit).

The life of St. Patrick and his prayer "The Breastplate of St. Patrick" continue to inspire the Brothers who strive to see Christ in the people to whom they have committed their lives in serving.

# MSM MISSION

- Provides a spectrum of learning activities so as to promote holistic development.
- Design and implement a curriculum that is meticulously planned and rich in content.
- Ensure a congenial and reassuring atmosphere in school so that every child finds learning joyful.
- Foster among students a concern for all, especially the less privileged.
- Inculcate a sense of concern and respect for nature.

# MSM VISION

We visualize MSM as a garden where students are nurtured to blossom to their full potential through the care of parents, teachers and community at large.

**The Marian in full bloom will be a well groomed personality.**

## He/She will

- Be a responsible and productive citizen, patriotic and environmentally conscious.
- Have acquired skills that he/she will apply to live a fulfilling life.
- Be equipped to live an affluent life, yet remaining mindful of the needs of others.
- Conform to the world, yet keep God at the centre of her/his life.
- Have the strength to retain his/her individuality and yet remain respectful of social diversity.
- Open the door to lifelong learning.

**A true Marian is rooted in reality yet yearns to reach out to touch the sky.**

## Principal's Message

Dear All,

This novel virtual academic year has been a phenomenal learning experience in all ways possible. It was almost like being thrown into a battlefield unarmed. However, the resilience that the Marian family exhibited is par excellence. It would have been a nightmare if not for the collaborated efforts of the teachers, parents and students in seeing through this year efficaciously. The teachers predominantly, for having acted on war footing, to adapt to the task of reinventing their mode of imparting knowledge and rendering emotional assistance in the given circumstances. To me any day, indubitably, every teacher too is a front line warrior since education and learning never came to a standstill.

Parents whose responsibilities doubled playing the role of a half-teacher in making sure these online classes and exams went uninterrupted, amidst their own woes in these trying times. Marians of course have adapted to this modified system of learning with a lot of determination and grit. In this process they have also had opportunities and challenging situations to be self-disciplined and to live a life of integrity. Never ever did the word Positive sound so negative and petrifying. We all had to live through

moments that were emotionally and mentally draining yet reaching out to one another has kept us going.

We extend our heartfelt condolences to those many people who have lost their loved ones to the fatal pandemic which on the other hand has also taught us to redefine our priorities that make our lives meaningful and purposeful.

We acknowledge and appreciate the unceasing support extended by the PTA, the parents, alumni and well-wishers throughout this academic session.

At this moment in time, we all unanimously agree that a school is a lot more to a child than just books and studies. Its absence has already had its subtle impact on children and continues to do so as an undercurrent. This elusive effect impairs the wholesome moulding of children and certainly their well being cannot be compromised. Hence, Marians returning back to school asap is our hopeful yearning.

*“There are dark shadows on the earth,  
but its lights are stronger in the contrast.”-*

Charles Dickens

**Bro. Naveen Francis**

Principal

# Senior School Co-ordinator's Message

This special edition of school magazine 2020-21 demands a special message as the normal situation of the past doesn't exist and we are into the new normal. It has been a challenge for all in many fields including us in the Education field. In fact, there is an overall redefining of education which is the need of the hour. Technology plays its positive and negative roles at the highest level at this stage, confused status of priorities experienced by all stake holders students, parents and teachers. The objective of education itself is unclear or confusing to many in the current scenario. It is absolutely important for us to remain calm and focused. At present our education system focuses on developing the academic and technical excellence of the students, that is career oriented. Our duty, as educationalists, is much beyond this to make students become human. Knowledge becomes useful only if it makes our children more humane.

The objective of education is to enable one to think clearly and act rightly. It is much simpler to teach students geometry or algebra than to teach them justice, moderation and patience. We can teach students ethical theory or history of ethics, but that will not prevent them from

cheating in their examination, even in Value Education. Learning to be good or to do right is absolutely different from getting expertise in various subjects of studies. Values are not intellectual perception or practical skill. It is often said that values are not taught but caught. The first nursery where children catch human values is the home. So the right mode of parenting assumes great importance in the mending and moulding of the young. According to Swami Vivekananda education is a man making process, a divine mission requiring total commitment from part of parents and teachers. Our aim is nothing short of making better human beings. Surely we need professionals and experts in every field, But, we want them to be endowed with human sentiments and values. And these moral values are imbibed from parents and teachers. If every parent and teacher takes care of the vision of education, we can be sure to have a generation of happy children who will grow into responsible citizens and leaders of tomorrow.

**Mr. Geo Mathew**

Sr. School Coordinator

# Middle School Co-ordinator's Message

A school magazine for a year that didn't see any regular schooling! This year brought various challenges for teachers and students including inaccessibility to devices, limited or unreliable internet access and other issues. Add to this the complex interplay of being physically threatened by corona virus and mentally exhausted by a lack of definite action.

We have learned many important life lessons from the year that has been. Determination, persistence and hard work helped us complete our curriculum. Curiosity, enthusiasm, intelligence helped us understand the latest in technology to accomplish our curriculum. It may sound like a very bold claim but once you go through the pages of this journal you will agree that there is no dull moment in a school. There is so much to learn.

Education is no child's play.

Knowledge of the sciences, arts, mathematics, languages is a very serious affair. Studying on a daily basis is crucial to absorb what our textbooks offer. Attendance has been a very strong parameter for success in this year's online schooling.

But mere sharpening of the Intellect with textbook study is at best a very limited outlook. Habits like tolerance, mental poise, equanimity need to be cultivated. A disciplined mind brings positive energy and is a prerequisite to a balanced life.

Each teacher is endowed with special gifts, traits and skills that they use while teaching and engaging students. Some values that are non-negotiable like punctuality, kindness, respect and sincerity are communicated subtly during physical classes. Online education has not addressed these vital areas. It has been a Herculean responsibility for parents to keep their children constructively engaged.

I'm grateful to all the stakeholders -parents and families who have helped to develop and instil these qualities and virtues in our students.

Studying from home developed as the new norm.

It was almost like the ancient times. Then, a child did not lead two separate lives. School life and home life. A child was either in a gurukul where he spent his formative years or at home where literature and sciences were taught. Various responsibilities and participation in the running of the gurukul or household were entrusted to the young pupil. Perception, contemplation were tools of learning and so they must be. I believe today, we have learnt to be mindful of our goals, mindful of our actions.

It is imperative to get a good education. It defines our existence and is the building block of living an affluent, meaningful well-balanced life. When we add character building and moral values to our curriculum, we have given wings to our education.

I express my gratitude to our principal brother Naveen who has empowered us with digital technology by generously giving us the infrastructure & platform to work from home. I appreciate the teamwork of our staff members who never let the spirit of learning get tainted. Their enthusiasm in learning new skills to teach online is worth praising.

We will move forward armoured with experience and hope and strive to learn and work in challenging situations. The skills that we have gained are important life skills that adversity has taught us. It is with great love and enthusiasm that I look forward to another year ahead.

I'm grateful to the Almighty to have blessed us and I pray God Almighty keeps all of us healthy and happy.

**Mrs. Monica Jain**

Middle School Coordinator

# Junior School Co-ordinator's Message

“ The struggle you're in today is developing the strength you need for tomorrow. ”

*Your Year 2020 held challenging times that we in MSM rose up to meet fearlessly, actively, with resilience and with the surety of defeating all odds.*

The safe and familiar haven of our classrooms seemed like a distant dream. Online classes were to be conducted. Encouragement and help came immediately as our Principal Rev. Bro. Naveen Francis arranged for webinars and workshops, anything to polish the computer and the online skills of the teachers. Learn we did rather quickly, effectively and impactfully. We teachers now realize that learning is an ongoing process and not relegated to only our students. However, we did ourselves proud as we went online not only with our classes but also with our assemblies, celebration of festivals, special days, assessments, parent teacher meetings and many other such activities. Yes indeed, we maintained the balance throughout just as we had been doing through the past years. The bonding and rapport between the staff and

students along with their parents deepened. After all were we not all in the same and familiar situation, all fighting the same battle. The gates of our school may have remained shut but schooling made its way into every home. Mount St. Mary's is a family and as a family we all grieved together at the loss of our family member. Our support and prayers remain for those teachers, parents and children who have suffered the loss of a loved one. I thank our Principal for his belief in us. There is never a day when we felt pressurized. My sincere gratitude to the staff of the Junior School, Middle School, Senior School for their cooperation, support and willingness.

**Mrs. Neelam Kotnala**

Junior School Coordinator

# Editorial

The year 2020 has been a year of many firsts. The world as we knew it, metamorphosed from a real one to a virtual one in the matter of a few months.

Gone are the days when children would be reprimanded for loitering in the corridor, and they came up with novel excuses for not getting a proper haircut. The classroom was replaced by the home, and the blackboard by the laptop. While a teacher's primary grouse was "children talk too much during the class", children's voices are music to our ears now. The frenzy of the examination hall, has given way to the online form and our drawing rooms have become makeshift dance and music rooms.

The pandemic has brought with a time of new learning, unlearning and relearning. It has called for a reorientation of our priorities, values, needs and wants. Children have risen to the occasion and adapted to the new mode of learning with breathtaking resilience and parents have worked hand in glove with the school to make the most of this adversity.

While one might assume the pandemic to be a dampener on children's creativity and enthusiasm, children have incredulously turned the situation around, to showcase their talents virtually. School may have functioned only virtually, but that did not

stop the children from putting up scintillating assemblies, or participating in Online Inter and Intra School Competitions.

Personally, for me the last year has been an eye opener, as it has shaken me out of my long held, and misplaced disdain for technology. I had always believed technology had made us faster and smarter, but not necessarily better as human beings. A very significant part of my literary, idealistic self, yearned for a world less riddled with technological innovations. However, the far reaching benefits and uses of technology, not just for teaching, or health care services but for the dispersal of communication and knowledge, has put me in my place. In simple words, I am no longer a literary snob!

And so, this edition of the magazine is dedicated to the spirit of resilience and courage shown by everyone during this trying time. It is dedicated not just to the children, parents and teachers, but to all the COVID Warriors.

My deepfelt gratitude goes out to our Principal, Rev. Bro Naveen, Community Leader Bro. Sylvanus, the co-ordinators and my entire Editorial Team for making this a possibility.

**Happy Reading!**

# Brother Arockia Raj's Farewell

**'Every new beginning comes from some other beginning's end.'**

**O**n June 16, 2020, with mixed feelings, a farewell ceremony was organised in the staffroom where Brother Arockia Raj was given a send-off. Brother Arockia Raj became a pre-eminent member of Mount St. Mary's School in the year 2018. He joined the Institution as Vice – Principal. In the subsequent year, he headed the Institution as the Superior and Principal of Mount St. Mary's School from 2019 to 2020. His innovative ideas about creating stress-free learning environment were well-received. He gave two effective years offering the best and right skills to the students. Under his inspirational leadership both students and teachers were able to achieve new heights. Due to the pandemic, the staff could not be part of this event. Provincial Brother Jerome Ellens, Community Leader Brother Sylvanus, Mrs. Filomina Jose and the three coordinators – Mr. Geo Mathew, Mrs. Monica Jain and Mrs. Neelam Kotnala felicitated Brother Arockia Raj with bouquets. At the inception of the event there was an aura of euphoria but it was tinged with an air of sadness when each one of them expressed their feelings and highlighted the

innumerable contributions of Brother Arockia Raj for the betterment of the school. They mentioned how Brother carried an aura that affected all around him for raising our school to great heights. The event was full of intense moments. Brother also passed on the 'light' of wisdom and in an emotional speech bid adieu and thanked one and all in attendance. The event concluded by presenting a small token of love to Brother on behalf of the management and the staff respectively. Everyone took the opportunity to get them clicked and thanked him for his compassion and hands-on leadership. No one can erase his professionalism and altruism. Brother Arockia Raj will stay in our hearts as we continue to honour his legacy while he embarks on yet another journey as the Director in Partician College of Arts and Science, Chennai.

**"May the road rise up to meet you. May the wind be even at your back. May the sun shine warm upon your face and the rain fall softly on your fields. And until we meet again, may God hold you in the hollow of his hand"**

# Mrs. Filomina Jose Farewell

Mount St. Mary's bid adieu to a shining gem on 25th March 2020, which was proudly placed in the crown of its biology department for 24 indefatigable years.

In the winter of 1996, she walked, through the gates of MSM, a young, lean, biology enthusiast in a simply but prettily draped saree. She was appointed by Brother Christopher Dawes and was made an integral member of MSM by Bro. Bosco. The world knew her as Mrs. Filomina Jose and to MSM she was Filo Ma'am.

Mrs. Filomina Jose, apart from being connoisseur educator for Senior School, was a CBSE Level Head Examiner, Practical Examiner and Examiner for National CBSE

Medical Entrance Exam. She was Coordinator of Sampark – a unique outreach programme aimed at health care, women empowerment, cleanliness drive and education in a large scale. She was in-charge of YCS, Service for People Club, Eco-club, School examination, Science exhibitions, School programmes and was a member of Core committee: Patrician Bicentenary celebration, Disciplinary, School safety, Grievance Redressal, Anti Bullying, Child Protection, Anti-Tobacco committee, School magazine committee.

There was nostalgia and gloom on her farewell as colleagues shared anecdotes and memories. She was felicitated by Rev. Bro. Naveen and the coordinators Mr. Geo Mathew, Mrs. Monica Jain and Mrs. Neelam Kotnala.

Her ex-students prepared a heart-touching video of their reminiscences.

The event was concluded by wishing her the best for her valediction.

# Farewell

## MR. HENRY VICTOR SEQUEIRA

**M**r. Henry Victor Sequeira contributed to the services of Mount St. Mary's school as senior school social science teacher from April 1998, till 20th March 2020. In these 22 optimum years of his service, he has contributed not only with his knowledge of the subject but also with other services to the school. Besides being a resonating voice, and anecdotal educationalist, he was the house coordinator of three houses of the school. All these houses under his guidance and leadership have achieved great heights. During his tenure in the school, he took the responsibilities of various nature. Be it in-charge of canteen, tour and excursion in charge, in-charge of Services for people club, organizing pragmatic street plays and nukkad nataks, he has always been very committed in living up to all his responsibilities. He had a great vision for society also. He always thought of bringing reformation to the underprivileged sections of the society through education and social work. Along with his expertise in the social science he was a great spiritual teacher also. He has served as HOD for both Social Science and Catechism and was pillar of strength for both. His spiritual knowledge has been valuable for promotion of YCS also. Mr. Henry was an ever smiling, jovial gentleman, who was always ready to help. Inside the social science class room there was an energetic, pragmatic and lively teacher and during annual functions and events, there was a skilful master of all trades. He is a man with high moral values and attached great importance to discipline in every one's life. He tried and inculcated the same in the students of MSM. The school will always be indebted for his valuable contributions towards the growth of the students.

On his farewell, he was fondly remembered as a cheerful and helping colleague, who was a man of God. The fraternity pray to almighty for a successful new beginning of his life.

*"You are a beacon of strength and knowledge. If there were more people like you, the world would be a better place"*

# Obituary

Mr. Lalit Kumar

“Thy music in my heart I bore,  
When it was heard no more.”

The 1st of September, 1996, marked a red letter day in MSM. The then Principal, Rev Bro. Christopher Dawes, seeing the immense potential of a young 24 year old appointed Mr. Lalit Kumar to assist his father Mr. Santhosh Kumar, who was our much loved Music teacher in MSM from 1981 to 2012. From then on, the melodious voice of Mr. Lalit Kumar, emerging from the Indian music room, thrilled all those who passed by. Who needed the famous play back singers of Bollywood!! After all, we had our own singing star!! No celebration in the Staffroom was complete without Mr Lalit taking to the Mike. Those celebrating birthdays, or any other milestones, were serenaded by him and all those present would be transported by the sheer beauty of his voice.

Mr Lalit proved a more than able successor to his father, taking over as HOD of the Music Department in 2014. Generations of students were mentored by him and went on to shine themselves onstage with his guidance. While he left us, for his heavenly abode on 7th March 2021, like Wordsworth we can say that he may be gone, but his voice still echoes in our minds and hearts.

# PREP Orientation

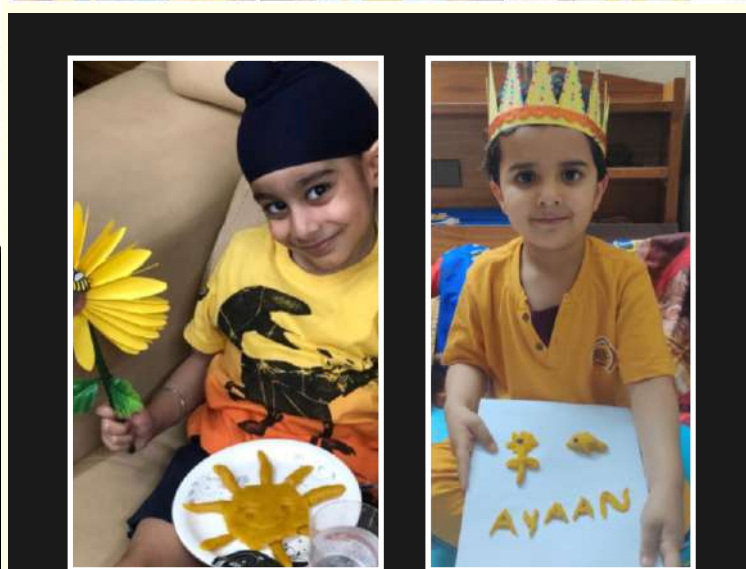

An Orientation Programme is held at the beginning of every new session to introduce the new parents to the ethos and methodology followed at Mount St. Mary's School. The school takes great pride in making them a part of the big Marian family. Due to the ongoing pandemic, the Orientation Programme for Classes Prep ABC was organised virtually on 27th April, 2020. During the online interaction, the parents were apprised about the curriculum, rules and regulations and activities. General instructions related to the online classes were given as well. Queries raised by the parents were answered and they were happy that the classes would be conducted online .

# Yellow Day

Classes Prep ABC celebrated Yellow Day with great joy and happiness on 14th May, 2020. Our Preppies enjoyed creating homemade yellow dough and relished making yummy lemonade online. Cheerful children in yellow attires were sparkling with optimism and happiness. Beams of yellow shades carried the promise of a positive future flashing creative thoughts in the young minds. The true essence of the colour yellow was put up by them in an earnest manner which eventually transformed the occasion into an extremely beautiful experience, so pleasing to the eyes.

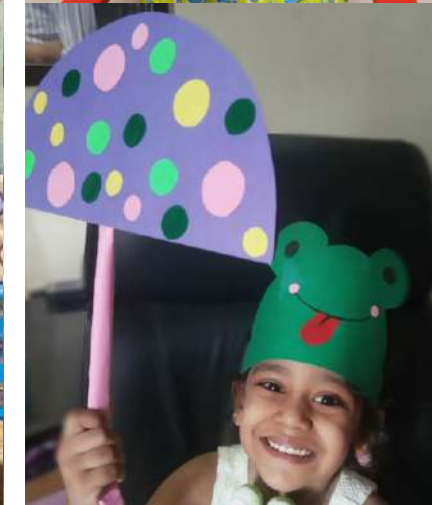

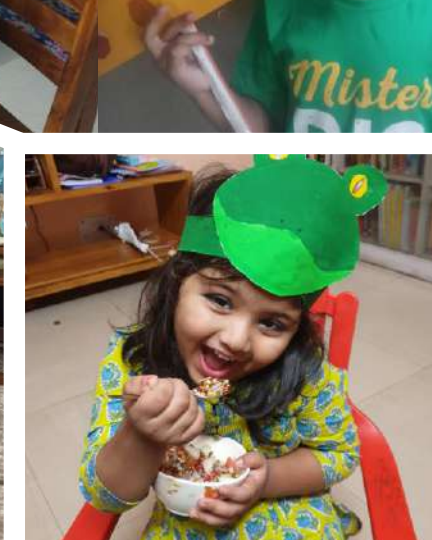

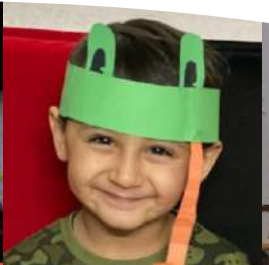

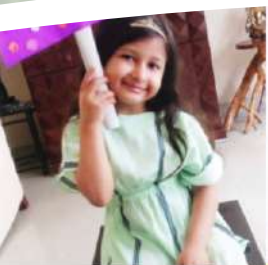

# Pitter Patter

## RAINDROPS

*The wonderful feeling of the rain  
You tend to forget all your pain.  
The pitter patter drops falling on you  
It takes you to another world so new.*

Classes Prep ABC celebrated Pitter Patter Day on 30th July, 2020 with great pomp and show. Our Preppies were thrilled to have an online fun race 'froggy jump' wearing beautiful froggy headgear. The children enjoyed making yummy green salad and dancing to a foot tapping number with colourful umbrellas. It was indeed a day filled with lot of fun and excitement.

# PAPER BAGS making

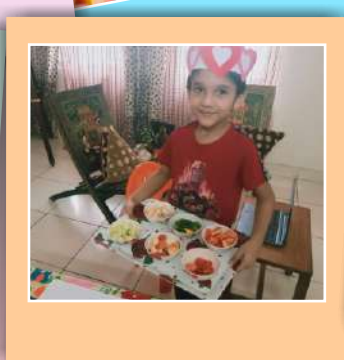

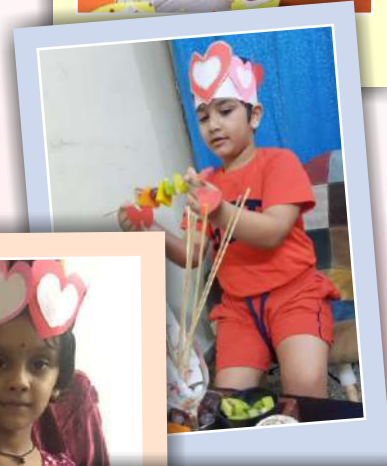

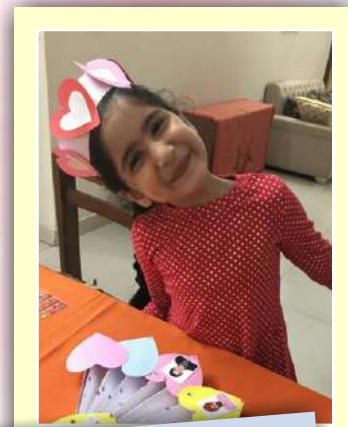

In an effort to promote an awareness towards the harmful effects of using polythene bags, an activity of making PAPER BAGS was conducted online with the students of One ABC on 28th and 29th May, 2020. The children enjoyed making bags out of the waste paper in their house. The paper bags were made without the use of a pair of scissors and glue. The Junior School Coordinator, Mrs. Neelam Kotnala too joined in and appreciated the efforts of the little ones. It was an interesting activity and was liked by one and all.

# Love *Must be shared*

Online learning does not have to be limited to the explanation of lessons and written assignments. With a little out of the box thinking, the class teachers of One ABC conducted a virtual programme 'Love Must Be Shared' on 4th September, 2020. A one hour programme was weaved to explain the power of love, happiness and peace. A story based on love being shared was introduced through a power point presentation. Numerous activities were incorporated to make the show interesting, informative and participative for the students. The children enjoyed their craft work which included making a lovely photo frame. A fruit cocktail stick was made and relished with sheer delight. They played games, sang songs and danced to the numbers played by the music and dance teachers. It was a complete fun filled activity.

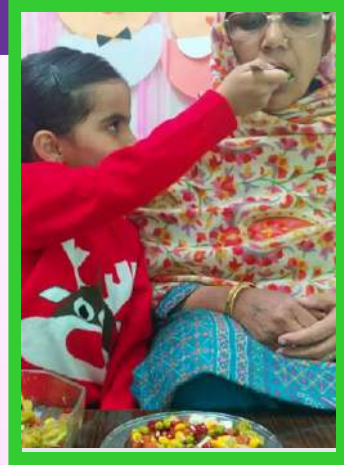

Prep  
**Grandparents'  
Day**

'The Grandeur of Grandparents' was organised on 13th February, 2021. The online programme commenced by welcoming the Principal Rev. Bro. Naveen, the Junior School Coordinator Mrs. Neelam Kotnala and all the grandparents. The programme was based on a story that emphasized the importance and role of the grandparents in our lives. Fun-filled games, snacks, dance, and songs sung by the kids were part of the online session. The most emotional part of the programme was the video/ audio messages of grandparents who are not staying with their grandchildren. Everyone enjoyed the show.

Class One  
**Grandparents'  
 Day**

MSM has always emphasized on the value of respecting elders. With this value in mind, Class One ABC celebrated a virtual Grandparents' Day with a show called 'With Love and Gratitude' on 13th February, 2021. The day was dedicated to grandparents. Children showed their gratitude and received the blessings of their grandparents through a set of activities woven around respect and love as well as care. It was a cherished experience for our grandpas and grandmas. The joy and the happiness expressed by each grandparent and grandchild was evident by their smiles and enthusiastic participation.

# ASSEMBLIES

Periodic Class Assemblies are a forum for presentation of speeches, dances, songs and prayers by the students. This year virtual class assemblies were held to deliver educational and entertaining content on Independence Day, Diwali, Christmas and Republic Day.

# Sikkim

All the States /Union Territories in India were paired for an entire year under the 'Ek Bharat Shreshtha Bharat' to promote cultural connect in the areas of language, religions, festivals, cuisine, tourism, industry etc. to generate understanding and appreciation among the students and thereby forge unity in the nation. Delhi was paired with Sikkim. Hence, various activities were conducted such as speaking in the different languages spoken in Sikkim, dressing up in the traditional attire, making collages on the festivals, places of interest, handicrafts and industry and writing a paragraph on Sikkim.

## INTERSCHOOL ONLINE ENGLISH RECITATION COMPETITION

**Pratiksha Limbu**  
Class Five

**Srijan Agnihotri**  
Class Four

The 17th Bro. Aloysius Inter School English Recitation Competition was held on 29th October, 2020. The competition was held online.

Five schools participated in the competition. The students recited the poems with perfect diction, pronunciation and clarity.

The judges - Mrs. Lorna Mehra, Mrs. Meenakshi Sharma and Ms. Sheetal Dawra praised the choice of the poems and the way they were recited.

The first position in Class Four as well as Class Five was bagged by The Army Public School, Delhi Cantt.

### Junior School Annual Award Ceremony 2019-2020

23rd November, 2020, will be remembered by both students and parents for a long time. The Junior School Annual Award Ceremony was held on an online platform for the first time ever.

The purpose of having an Annual Award Ceremony is to honour the students who

have excelled in the fields of academics, sports and co-curricular activities.

The awards under various categories were given to the students and every winner was filled with pride to see his/her image during the presentation. It was indeed a glorious moment for the parents of the award winners.

# Annual Award Ceremony 2019 – 2020

If I were a   
**Mouse**

**IF I WERE A MOUSE OF A COMPUTER.....**

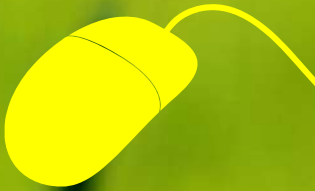

I am a mousy, the silver Magic Mouse.

I am wireless so I don't have a tail. I have two cheeks and a nose. Do you want to know how my friend Jayden, treats me? He clicks on my left cheek to select his games and on my right cheek to see the options of many commands. My nose is like a scroll-wheel to move up and down the page. Jayden loves to click on me as I make his work easier. We draw and play games together.

**Jayden Reny**  
Two A

If I were a mouse of a laptop. I would like to explore everything on Google! It is so exciting to gain knowledge on so many topics. I would write a peace note for all the countries so that every human being lives happily and safely. I would write a note of gratitude for our soldiers in the army who always risk their lives for our safety. If I were a mouse, I would explore the whole world with a click through Google maps! I would paint beautiful pictures in MS Paint and write affectionate emails to my friends and teachers.

**Nitya Chawla**  
Two B

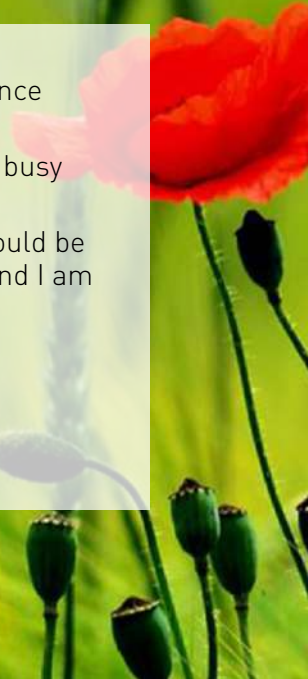

If I were a mouse of a laptop, I would be laughing all the time since people would be tickling me on my stomach all day long.

If I were a mouse of a laptop, I would be dancing to the tunes of busy people and would be tired too.

I would surely feel so important as all the work on the laptop would be done with my help. After all, that is my duty and responsibility and I am happy doing that.

**Prithish Arora**  
Two C

## If I were a Mouse

If I were a mouse of a laptop, I'd like to roam around and explore the magical world of Google Chrome.

My double clicks would change the screens and I'd be the one to open the doors of knowledge.

I'd always be obedient and dependable to the one who handles me gently and softly.

**Akshat Ghosh**

Three A

If I were a mouse of a laptop, I would first like to introduce myself and my family to all of you.

Hi, I'm Sophia the mouse. I am pink in colour. I'm the smallest in my family—my mummy is a Bluetooth mouse, my daddy is a gaming mouse, my sister is a battery-operated mouse. I am a mouse to Millie, my owner. I met Millie at a store. We were a discount family pack and she was looking for a mouse. I was very nervous that nobody would buy me because I'm pink in colour and most of the mice were black. But I was wrong, because Millie and her family bought me!!! I was so happy! After she took me home, she plugged me in and those were my first scrolls. I have been with her ever since and glad that I have been of great help during these testing times

**Sophia Justin Murik**

Three B

If I were a mouse of a laptop, I would want to be a wireless mouse with Bluetooth.

I belong to Dhananjay and he uses me for his online classes. I rest at night and in the morning I wait to be used by my owner. I like making his job easier when he is studying. The purpose of my life is to point, select and choose things on the laptop screen. I like it when my owner uses me for his work and I don't like weekends because I have nothing to do and I sit still all day.

**Dhananjay Sihag**

Three C

# My Hobby

My hobby is reading. It might be a storybook, newspaper, news or magazine etc. I find reading very interesting.

The first time, my mother noticed me reading books, she encouraged me a lot by saying that it's a very good habit, my son. She also advised me not to give up the habit. When I was five years old, I liked reading fairy tales and other story books that were given by my mother.

Now, I am nine years old and I understand the benefits of reading. Actually, reading a book helps me to gain general knowledge. This habit really helps me to know the unknown, to see the unseen, to discover the undiscovered. I can even know the history, culture, animals, space, human achievements, and other fascinating things about the world.

**Rayhan Iqbal**  
Four A

Some children like to dance, some like to paint, some to read and some play but I like to do research work. What makes it interesting are the topics that I research about. I have learned about the two great wars in History- the First World War and the Second World War. I like to watch videos related to the two World Wars and even play video games related to this subject. I have a keen interest in drawing flags of different countries and if ever there is a quiz about identifying the flags of the countries, I am going to ace it. I have learned about the great leaders who have influenced the world and we talk about these great leaders even today. History is amazing, the more you dig the more you find. That's why I like reading and finding more about these things so much and this dear reader is my HOBBY!

**Harangad Singh**  
Four B

A hobby is an activity that is done for enjoyment. My hobby is drawing. I love to draw, sketch and paint. I used to draw even before I started going to school. Then my parents sent me for the Art Classes and my interest for drawing started developing. I always wait for Art periods at school. I like to draw in different types of styles and these days I am enjoying Anime-Japanese film and television animation. Sometimes, I have fun-filled Art Competition with my brother and mother. In my dreams also, my drawings come to life from magical fairies to space age aliens. Drawing helps me to focus in my daily life and fills me with joy and energy. Once a drawing is completed, I hang it on my door. During the lockdown period, drawing helped me in many ways. I drew a lot during lockdown to avoid too much of screen time.

When I grow older, I would like to continue with this mesmerizing journey of drawing.

**Rishita Goswami**  
Four C

# Honesty

is the best policy

Honesty and truthfulness in following rules and acting with integrity is an important quality to achieve. This does not come easily as following the path of truth and honesty requires immense courage and self-belief. Dishonesty and use of unfair means to achieve our ends make us anxious, restless and nervous. We cannot be at peace by using these means to achieve our goals. It might seem as a short-term gain but will be harmful for us in the long run. For example, when students use unfair means during online exams to get good grades, it can be an immediate gain. But, through such means students end up deceiving themselves. Therefore, let us embark on the path of honesty for it will prove to be abundantly beneficial in achieving a sound character.

**Karthik Shankar**  
Five A

The age old yet relevant at all times proverb, 'Honesty is the best policy' was coined by Benjamin Franklin.

Honesty is one of the most important virtues which has been gifted by God to mankind and can be possessed by a human being. Being honest is very important in life as it leads one towards a peaceful and successful life.

Lie and deceit may help you for a short while, but ultimately the truth will be out one day. By being honest, not only does one strengthen one's character but feels confident at all times.

Honesty helps us win good, loyal and true friends in life. An honest person is always trusted by others and respected in the society. It gives us the power to tackle any adverse circumstance in life. Hence, honesty makes one fearless and courageous.

An honest citizen is the backbone of a well developed society. All respected leaders of our country and the world always had this great virtue.

**Aditya Dubey**  
Five B

Honesty is the best policy means being honest and truthful at all times. Everyone makes mistakes but learning from those mistakes is the best thing one can do. I am not good at drawing. When one of my Art teachers gave a home work which I was not able to do, I got it made by someone. My drawing teacher figured it out. So instead of scolding me, she enquired from me, and when I accepted it, she rewarded me. That was the day when I learnt that honesty is the best thing to be followed throughout my life. As this Academic Session (2020-2021) was conducted online, the assessments were held online too. Our teachers kept reminding us that we should be honest during the assessments. A few days ago, my class teacher said that she knew who had cheated in the assessments. She did not want to disclose their names in the class so that they didn't feel embarrassed. She asked them to say sorry on her personal wall (phone number) and she said that she would be happy if the students would be honest in future.

**Sukrit Singh Phukela**  
Five C

# The Investiture Ceremony 2020-21

*“Great leaders don't set out to be a leader. They set out to make a difference. It's never about the role-always about the GOAL”*

Potential Leaders of tomorrow are groomed, developed and raised in the miniature world of an educational institution through diverse portfolios that are offered to mark a difference. With this objective, Mount St. Mary's School hosted its very first Virtual Investiture Ceremony in December. The Head Boy and the Head Girl along with the council members were endowed with the duty of enhancing young leaders and pledged the oath of commitment, endurance, and empowering of young minds of the school. Even though online, it was organized in all its grandeur.

The event started with Lighting of the Lamp by the Principal, Coordinators and Student Council teacher in charges. Then commenced the swearing in of the White House- the Head Boy, the Head Girl and the Sports Captain. It was followed by the swearing in of the Captains and the Vice Captains of the four houses-Hogan, Hughes, Parkinson and Price. And the last stage concluded with the swearing in of the eight

prefects of each house who assist the Captain and Vice-Captain.

The newly-appointed council members were adorned with badges which were pinned on to them by their parents. All the designated members took the oath, promised to serve the institution and perform their duties wholeheartedly and sincerely. The elected members were brimming with confidence to shoulder the assigned duties.

The ceremony concluded with an inspiring speech given by the principal. He congratulated the newly appointed school council members and their preparedness to take up responsibilities entrusted to them. The Student Council Teacher in charge then guided the students to follow what they preach and translate the vision of the school into reality. She also encouraged the students to be committed towards significant issues and always be sentient of the fact that leadership comes with veracity.

## Annual Virtual

# Inter House Cultural Fiesta 2020

Mount St Mary's School is a symphony that celebrates the confluence of many tunes of talent with opportunity, of intellect with diligence, of fun with learning. Our school has been a leader, a harbinger of change and adaptability. We strongly support the development of extracurricular skills to augment and provide for a more holistic education.

With this aim of infusing a spirit of healthy competition and promoting team spirit and camaraderie among the students, MSM organised its Annual Virtual Inter House Cultural Fiesta for classes 6 to 12 on 19th and 20th November, 2020. The fiesta incorporated a plethora of activities ranging from public speaking to choreography, music to computers. We had it all..., crossword, radio jockey, dramatics, photography and movie making. It gave the students an opportunity to develop particular skills and exhibit their non-academic abilities and it also groomed the students in the 'art of living and working together'.

# Teachers' Day

## 2020

The parents are first teachers and teachers are second parents who shape the future of students. So, to honour our teachers for their priceless job, Teacher's Day was celebrated on the 5th of September on a virtual platform at Mount St. Mary's School, New Delhi. The programme started with the Head Boy and Head Girl welcoming all the teachers. A video compilation of photos of teachers was played followed by many dance performances by students, which was followed by beautiful and

melodious medley of old yet golden songs. After that, Rapid Fire and the Face-Off were organized by students which were enjoyed a lot by every teacher and all teachers participated in the same.

Lastly, Mr. Geo Matthew, the Senior School Coordinator, addressed the audience and acknowledged the participation and efforts of Class 12 students. The program ended with a vote of thanks which was given by the White House.

DEAR TEACHERS, ALL MARIANS LOVE YOU.  
ACCEPT OUR GRATITUDE

GURAVE NAMAHA

# Children's Day Assembly 12<sup>TH</sup> NOVEMBER 2020

In the special times when the pandemic changed all the rules and norms of life, Mount St. Mary's school organised an online Children's Day Assembly on Friday, 12th November through the Teams App. The teachers made extraordinary efforts to put up a show for the children, to make them feel special and remind them just how much their school and teachers are missing them.

The show was a kaleidoscope of music, dance and drama all performed by the teachers. All the teachers showed great enthusiasm in all their performances. A montage was also a part of the program which contained the students' pictures. This made them nostalgic as well as emotional.

The senior teachers led by the Senior School Co Ordinator gave their heartfelt messages to the students. They enlightened the students on how to face these difficult times and also wished them a beautiful Children's day. The Middle School co-ordinator began the assembly by giving a message to the children teaching them how important it was to stay real in a world that has seen an enormous change, especially when the virtual world has become a major part of their life.

The Junior School Coordinator said the prayer, praying to the lord for the safety and health of the students. The assembly culminated with a message by the Principal, who gave an invigorating speech, reminding them about their role in nation building and also about the role played by their parents and teachers in their overall growth. Bro Naveen emphasized their duty of being loyal and sincere.

**The assembly was enjoyed as well as appreciated not only by children but also by the parents.**

# 38th Bro. Bergin *Music Meet*

Mount St. Mary's Delhi Cantt

“Music is the great uniter. An incredible force. Something that people who differ on everything and anything else can have in common.”

- Sarah Dessen

**M**ount St. Mary's School, Delhi Cantt held it's 38th Bro. Bergin Memorial Music Meet virtually this year. It is a platform for the budding musicians of various schools in and around Delhi to showcase their talent and share their love for music. Over the years, the Bro. Bergin Music Meet has become an abiding testament to unity in diversity as it brings together schools from every corner of Delhi and the NCR. More importantly, the thirty-eight years that the Bro. Bergin Memorial Music Meet has been in existence, is definitely an abiding testimony to its popularity, its overwhelming appeal and its spirited promise for the future.

This year, students from 18 schools participated in the event which comprised 43 performances in Indian and Western music. Eminent personalities from the world of music judged the virtual programme. The judges were enthralled by the mesmerizing renditions by the budding musicians. The much awaited results of the competitions were declared online.

Let's get started

## Bro. E.T. Dunne Interschool English Debate

The key to holding a logical argument or debate is to allow oneself to understand the other person's argument no matter how divergent their views may seem.

Debate is one of the academic activities that gives students creative space for fair discussion and an opportunity to challenge and explore new opinions and ideas. With this perspective, Mount St Mary's School organised the 7th Bro. E.T. Dunne Interschool Debate for classes VII and VIII on 30th October 2020. It was the first live online event ever conducted through Microsoft Teams in the history of the Institution. With a strong belief that learning is an ongoing process and should continue even in unprecedented times, the Institution took the initiative to explore the virtual platform. The aim was to bring together the budding debaters of reputed Schools to enhance their analytical and social skills, and also foster confidence amongst them.

An enthusiastic response was received from the esteemed Schools of Delhi NCR who connected with us through Microsoft Teams. The finalists were shortlisted on the basis of the videos sent by them. This year the debate had a surprise element of **DEVIL'S ADVOCATE** which was very intriguing for the participants. The finalists appeared live, with unwavering confidence to face the Devil's Advocate in the rebuttal round. They came up with reasoned and well thought arguments to refute. The event was judged by erudite educationists.

Lorea Mishra of St. Thomas School was adjudged the best speaker for the motion and Tarunni Handoo of DPS Noida was the best speaker against the motion. Trisha Sharma from Blue Bells International became the Devil's Advocate Delight for her best rebuttal.

The event turned out to be a grand success garnering praises from the participating schools and the esteemed judges.

BY: TEAM BROTHER DUNNE DEBATE

# Christmas

Assembly 2020

December is the month of happiness, celebration and enjoyment, a month associated with the colours Red and White, a month when Jingle Bells ring and there is a sweetness in the air. For Mount St. Mary's school, it is definitely a time of festivity and thanking the Lord for blessing us with the Gift of His Son, who showed us the right path.

However because of ongoing Pandemic, Christmas Assembly 2020 was organised as a virtual event on 22nd December 2020, for which a video presentation was prepared. It was a display of music, dance and drama. There were Carols sung by both junior as well as senior school. The nativity play was performed in the form of a short skit.

there were celebration dances welcoming the Lord and wishing a very happy New Year to all.

The Marians made it a special Christmas this year by wishing the best for the world. They made Christmas wishes not just for themselves but for healing the world of this difficult situation.

The Head boy and Head girl of the school Prayed to the Almighty to keep his watchful eyes on the world and keep all Marians under his benign wings.

The assembly culminated with the Vice Principal Bro. Sylvanus' message, who reminded the children that these difficult times need us to be even more selfless and loving.

# Diet and Nutrition

for Mind and Body under FIT India Movement,

webinar held on December 7, 2020

School week celebration 2020

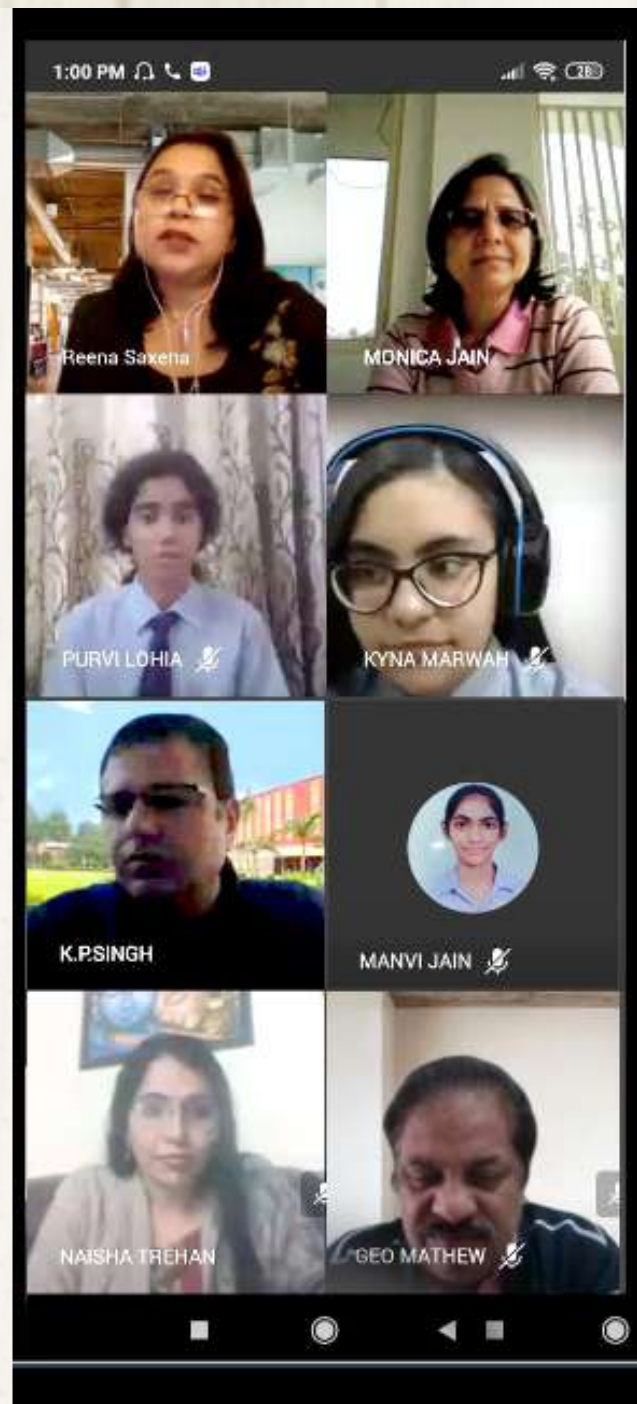

While the world faces uncertain times coming together on an online medium, we have to observe a life style of good health and social distance. So it's important to acknowledge that this uncertainty in pandemic can be stressful both for the health of mind and body. But we can work together and create a positive environment around us.

A webinar was held on "Diet and Nutrition for mind and body" under the FIT India movement as part of school week celebration 2020. Dr. Sanjana Trehan, a well-known Nutritionist and Dietician, Deen Dayal Upadhyay Hospital, Delhi was invited as an expert speaker for the webinar. It was attended by over 170 students with their parents and teachers from classes 6 to 8 and classes 9, 11.

The students were motivated to involve in healthy lifestyle through exercising, eating healthy diet, doing Yoga or Aerobics indoors and thus staying and feeling great about oneself. Many health problems associated with the digestive system are a result of a poor diet. The effects of poor eating and little exercise may take many years to show, therefore it is very important we eat healthily and exercise regularly now. "Eating Smart" strategies were discussed like healthy diet, chewing slowly and avoiding stress while eating.

The students, parents and teachers clarified their doubts like how to keep away from common colds, what are the healthy foods to be taken by asthmatic patients, eating non vegetarian food is healthy or not etc.

The audience found the talk very useful as their myths related to foods that can be healthy or harmful were clarified. The webinar came to an end with a vote of thanks by a student representative of class 11.

# TWINNING OF SCHOOLS PROJECT

By Mount St. Mary's School, 75, Parade Road, Delhi Cantt.

## Introduction:

In accordance to the instructions issued vide Samagra Shiksha Circular No: - DE.29(3)/UEEM/OSD/SS/ (08)/ dated 8th January 2021, Mount St Mary's School twinned with the Indira Gandhi Sr. Secondary School- Old Nangal, Delhi Cantt.

## Objective:

To foster student-to-student interaction and collaboration through online platform.

## Conduct:

The programme involved students of classes five and six from both the schools. It was conducted on 2nd March 2021 as an interactive session through Zoom Meeting scheduled by the Middle School Coordinator of Mount St. Mary's School Mrs. Monica Jain. All the participants joined the meeting using shared link, meeting id- 72524823306 and Passcode:1F1mk4.

The session had students from both the schools along with their teachers. The coordinators of Mount St. Mary's Delhi Cantt. Mrs. Monica Jain, Mrs. Neelam Kotnala, The principal of Indira Gandhi Sr. Secondary School- Old Nangal, Delhi Cantt. Mrs Suman Pahwa and observer from Department of Education Mrs. Hemlata Bhatia

were present during this session. The students got an opportunity to come together on a common online platform. Mount St. Mary's School took the initiative to host the sessions which commenced with a brief introduction of the twinned schools and the students. The objective of this meeting was stated by the teachers. The importance of social interaction was emphasised as a great skill through which one can learn empathy, concern for others and to see things from a different perspective.

The students participated with great zeal, enthusiasm and eagerness to learn. They greeted each other with warmth and alacrity. The discussion ranged over various topics like school infrastructure, hobbies, favourite subject, aims and aspirations in life, role models and learning of new skills during lockdown period. The session got over with an Online tour of Indira Gandhi Sr. Secondary School-Old Nangal, Delhi Cantt. At the end the students from both the schools invited each other to their schools on reopening of schools. The coordinators of Mount St. Mary's Delhi Cantt. thanked children, teachers and CBSE for providing this opportunity.

**The details of the students are as under.**

Class	School	Students	Teacher
FIVE	Mount St Mary's School	Aditya Dubey, AmairaBehal, DivitGandhi, Eknoor Parmar, Sarakshi Yadav, Aarav Swami, Ekraaj Parmar, Sukrit Singh Phukela	Mrs Sarita R. Sood
	Indira Gandhi Sr. Secondary School	Rabina, Bhumika, Udita Arya, Anushka Verma, Sunny Sharma, Kartik, Harsh, Neha, Daksh, Ganga, Jamuna, Rajeev, Ishika, Manav	Ms Vaishnavi Singh
SIX	Mount St Mary's School	Samaira Batra, Jayesh Raj Kumar, Meenakshi Jeevan, Mrigank Potaliya, Nyra Khosla, Ashutosh Pandey, Poorvi Tyagi, Saira Kumar, Nikhil Bhatia, Navya Khajuria, Shrishti Verma, Avreen Kaur, Nimisha Gupta, Saanvi.	Mrs Shailja Dubey
	Cantonment Board Sr. Secondary School	Chahat and Pratyaksh, Vivek, Suraj, Sonali, Geeta, Kaushal, Ayush Raj, Pradiyum, Neha, Hina, Mohit, Mannat, Kunal, Mohini Manthan	Mrs Muneesh

## Conclusion:

The students shared their views confidently without any inhibitions. They respected and appreciated each other's viewpoint. Over all it proved to be a great enriching experience. Since the session was conducted on Zoom platform it continued for three sessions and culminated with exchange of pleasantries and thanks giving.

## Matrix Ecomm Symposium 2020

The Matrix EcomBuzz has always been one of the most exciting events of the year, and 2020 was no different. From the first meeting to the declaration of the results, everyone involved was incredibly excited to once again host the event.

All the students were very enthusiastic while contributing to the organization of the event, from the framing of rules to drafting the invites. The excitement began the moment we were called for the first meeting and began to discuss exactly how we could bring the event to life. With the regular meetings, no one was excluded from the making of any decision and every event took place smoothly.

Even if an online event cannot beat experiencing the event in person, the excitement was still kept alive all the same. Under the guidance of Mrs. Aparna Sinha and Mrs. Lata Nandakumar, we were able to make the experience as fun-filled and light-hearted as possible. The only thing that was missing was the students' favourite part of the event – bunking their classes.

We are exceptionally grateful to our Principal, Rev. Bro. Naveen for giving us this wonderful opportunity in these unexpected times and to our teachers, without whom none of this would be possible.

## Virtual Talk Show on

# CYBER SECURITY

by **SERVICES FOR PEOPLE CLUB**

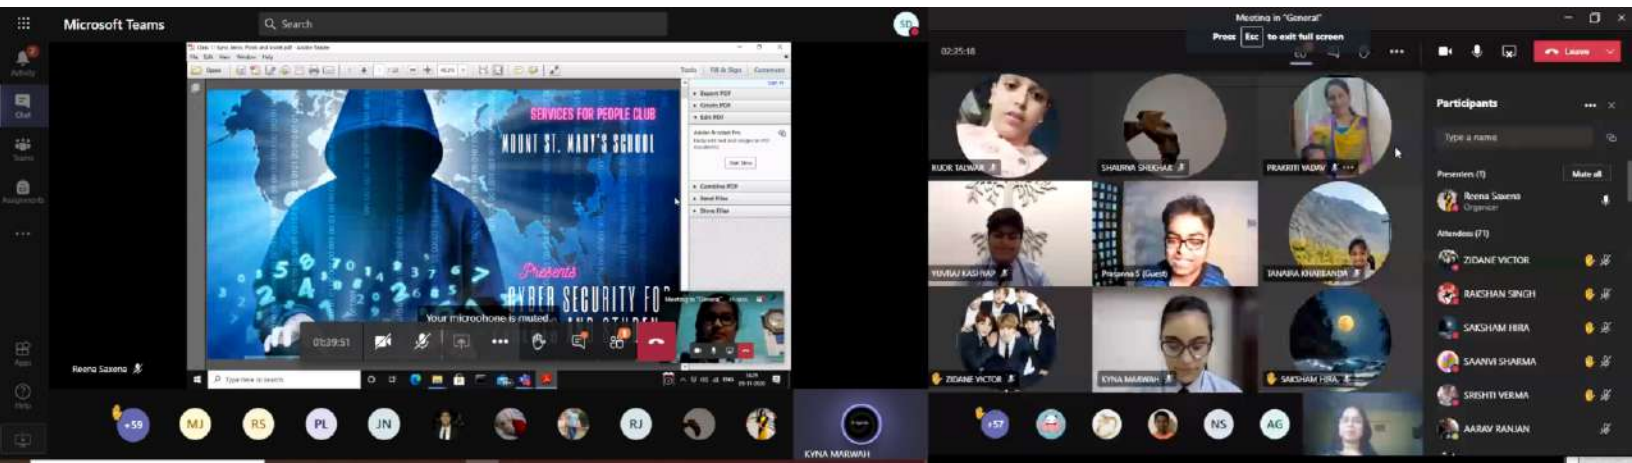

As the Covid -19 changes many things. While the new normal is working or going to school through virtual medium, education must include educating school children to learn the safe and secured ways of learning. Cyber security is a subject that requires logic, knowledge, thought and commitment.

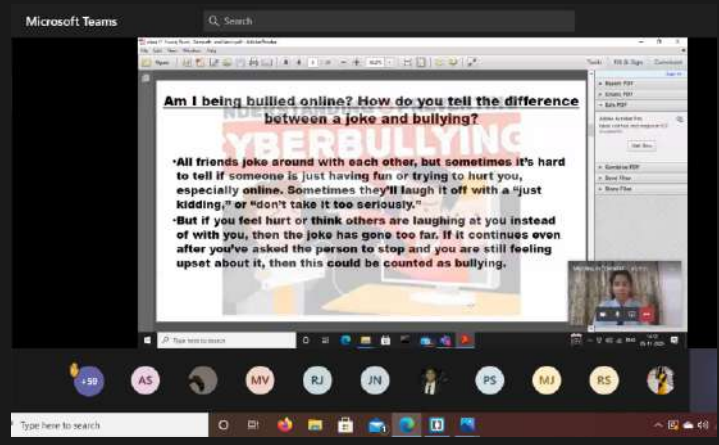

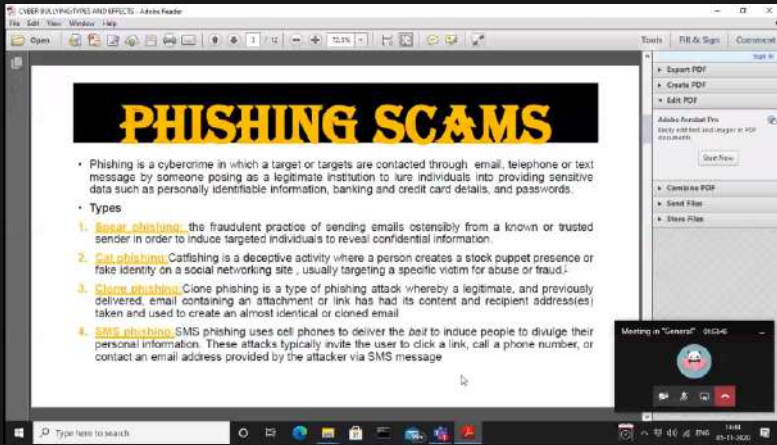

With this orientation "Cyber security" as a topic for "Virtual Talk show" was introduced to the students grades 6 and 7. The student volunteers of grades 9 to 12 of our school took this challenge of presenting the power point presentations on Cyber security. Mrs. Reena Saxena, Counsellor In-charge of Services for people club along with the student volunteers arranged the Talk show on November 2, 4 and 5, 2020 . A total of 51 students presented their power point presentations with 4 to 5 students grouped in various groups. Various subjects like Cyber Bullying, Hacking, IT Rules, Critical Infrastructure Security, Responsible Internet Behaviour etc. were taken up for different presentations. The program was arranged in the following way

a) On November 2, 2020, Presentations by students volunteers of class 9 for the students

of Classes 6A and 7A . There were 5 presentations . The expert guests for the show were Mr. Srinivas Kodali, Researcher and Software Developer with Free Software Movement of India and the second expert guest was Prof. Bharti Singh, Teaching Faculty , National Law University, Delhi.

- b) On November 4, 2020, Presentations by student volunteers of class 10 were made for the students of classes 6B and 7B. There were 4 presentations by the volunteers. In the end there was a surprise Cyber Quiz arranged for the middle school students. The expert guests were Mr. S. Prasanna, a software architect turned Lawyer, Advocate on record in Supreme Court of India.
- c) On November 5, 2020, Presentations by student volunteers of classes 11 and 12 were made for students of classes 6C and 7C. There were 3 presentations along with another surprise Cyber Quiz for the middle school students. The expert guests were same that is, Mr. S. Prasanna and Prof. Bharti Singh.

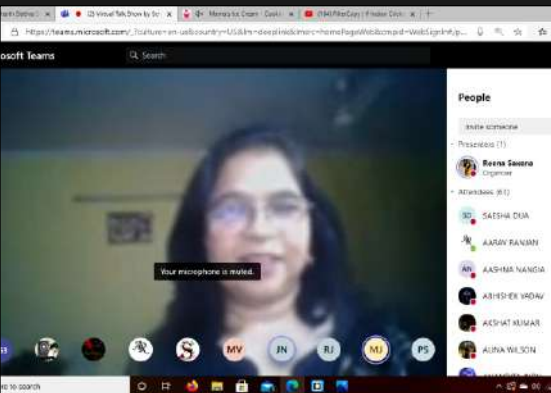

The expert guests not only gave their valuable comments on the presentations made but also clarified the doubts of presenters, students as well as the parents of the students who joined. Parents expressed that much needed information was given by the Club Volunteers. And the clarifications made by the expert guests made it more applicable and helped students understand the different reality checks and also the Law enforcement. Teachers felt that it goes a long way in educating the young minds in not taking the virtual medium casually. And helps them in making them responsible young citizens too.

The three day project came to an end with a thought that-

**"Thank you need not be just uttering words but to live by them. Cyber security is the need of the hour."**

**Ms. Reena Saxena**  
Counsellor cum In-Charge of Services for People Club

# Foundation Day Assembly

Mount St. Mary's School owes its existence to 'the Invincible Soul'- Bishop Dr. Daniel Delany whose vision was providing secular as well as religious education for his people, "rich and poor alike". Foundation Day is traditionally a very important day in the school calendar when members of the school community meet to commemorate Bishop Dr. Daniel Delany who founded the school and has bequeathed resources for its development. Foundation Day is celebrated on 2nd February every year by our school. This is a day we pay homage to our Founder.

This year we celebrated Foundation Day on the online platform of Microsoft Teams. Our teacher in charges along with the students prepared an extravaganza of events for the assembly. A combined video of all these events together was played on 2nd February 2021 at 9:00am. The video consisted of the following events:

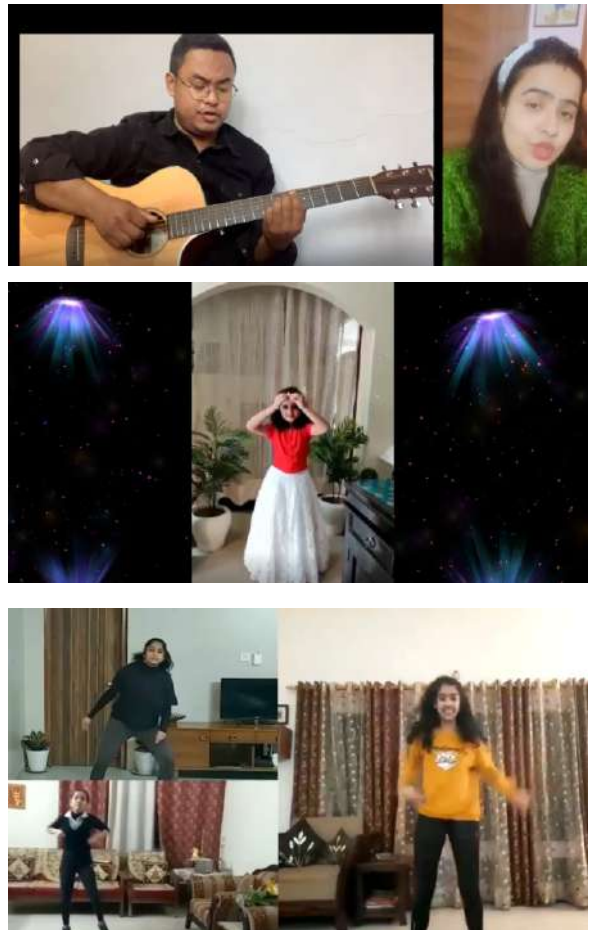

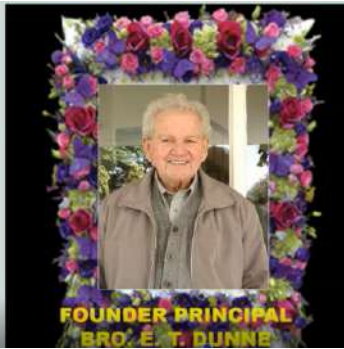

- Irish blessing and celebration songs
- Prayer dance by the junior

school students

- Skit on the life of Bishop Daniel Delany by the middle and senior school
- Journey of Mount St. Mary's School
- Celebration dance by the senior school students
- Happy Birthday MSM (wishes by the junior school students)
- Tribute to Bro. E. T. Dunne
- Closing Prayer by the head girl and head boy

The Assembly was an amalgamation of music and dance wherein students invoked the blessings of the Almighty. On the final day the video was played in a meeting which was scheduled under the name, 'Foundation Day Assembly' by all the class teachers for their respective classes. In the end our principal, Bro. Naveen F., wished all the staff members and students a Happy Foundation Day. He ended his speech by addressing how great a visionary Bishop Dr. Daniel Delany was and also shared a message about how one person's vision and thought can affect thousands in a positive manner.

# St Patrick's DAY

During unprecedented times when the world was in the grip of a pandemic, St Patrick's Day celebrations came as a whiff of fresh air to the Marian family. On 17<sup>th</sup> March, Mount St. Mary's School celebrated St. Patrick's Day in honour of the patron Saint of our school. The auspicious day was symbolised by a Shamrock, a type of three-leaved clover. It is said that Saint Patrick used the Shamrock to demonstrate the Christian Trinity (Father, Son and Holy Ghost) to the common people. The celebrations started with Holy Mass in the Church where we offered prayers to invoke blessings of the Almighty and the Saint. MSM fraternity attended the mass with great reverence and at the same time maintained social distance and followed other safety

protocols. The euphonious choir rendered the atmosphere melodious with their soulful and mellifluous hymns. The ubiquitous hues of green worn by all added vibrancy to the occasion. Thereafter the congregation moved to the auditorium and felicitated Brothers for their commendable contribution to the society with a cake cutting ceremony. A short presentation on the Educational Institutions run by Patrician Brothers was also shown. It was followed by a sumptuous feast which everybody savoured to their heart's content. The ceremony finally came to a close and we all left the campus with reverence in our hearts for Saint Patrick.

**Mrs. Shalini Bhardwaj**

## 5 Fiction Novels Every Teenager Should Read

“A reader lives a thousand lives before he dies, The man who never reads lives only one.”

Even then only a nanoscopic proportion of people like reading, others rather scroll to social media. However, does that exercise your brain or build up your vocabulary? No! Read more my friends, the experience is prodigious! Reading exercises your mind while relaxing it. Here are some books to hook you on a reading frolic.

First up, *Artemis Fowl* by Eoin Colfer, which is a decology (10 books) about a twelve-year-old Artemis Fowl who is a millionaire, a genius, and above all, a criminal mastermind. But even Artemis doesn't know what he's taken on when he kidnaps a fairy, Captain Holly Short of the LEPrecon Unit. These aren't the fairies of bedtime stories—they're dangerous! Full of unexpected twists and turns, *Artemis Fowl* is a riveting, magical adventure.

Moving on to my personal favorite, *The fault in our stars* by John Green, despite the tumor-shrinking medical miracle that has bought her a few years, Hazel has never been anything but terminal, her final chapter inscribed upon diagnosis. But when a gorgeous plot twist named Augustus Waters suddenly appears at Cancer Kid Support Group, Hazel's story is about to be completely rewritten. The book will make you want to laugh and cry at the same time! If that is your ilk, go on and give it a read. Afterwards, you may want to check out *Five Feet Apart* by Rachael Lippincott, Mikki Daughtry and Tobias Iaconis too.

To *Kill a Mockingbird* by Harper Lee even with dealing with the serious issues of rape and racial inequality, the novel is renowned for its warmth and humor. Atticus Finch, the narrator's father, has served as a moral hero for many readers and as a model of integrity for lawyers. If you love a good classic other suggestions would include *Pride and Prejudice* and *Sense and Sensibility* by Jane Austen and *1984* by George Orwell.

*Divergent* trilogy (3 books) by  
Veronica Roth In *Beatrice*

Prior's dystopian Chicago world, society is divided into five factions, each dedicated to the cultivation of a particular virtue—*Candor* (honesty), *Abnegation* (selflessness), *Dauntless* (bravery), *Amity* (peacefulness), and *Erudite* (intelligence). On an appointed day of every year, all sixteen-year-olds must select the faction to which they will devote the rest of their lives. Beatrice makes a choice that surprises everyone, including herself. During the highly competitive initiation that follows, Beatrice renames herself Tris and struggles alongside her fellow initiates to live out the choice they have made. Together they must undergo extreme physical tests of endurance and intense psychological simulations, some with devastating consequences. As initiation transforms them all, Tris must determine who her friends really are—and where, exactly, a romance with a sometimes fascinating, sometimes exasperating boy fits into the life she's chosen. But Tris also has a secret, one she's kept hidden from everyone. As she discovers unrest and growing conflict that threaten to unravel her seemingly perfect society, she also learns that her secret might help her save those she loves, or it might destroy her. Others from the same genus have to be *The Hunger Games Trilogy* by Suzanne Collins, *The Harry Potter Octalogy* (8 books) by J.K. Rowling and *The Maze Runner tetralogy* (4 books).

Lastly, *The Martian* by Andy Weir. Six days ago, astronaut Mark Watney became one of the first people to walk on Mars. Now, he's sure he'll be the first person to die there. After a dust storm nearly killing him, forcing his crew to evacuate, Mark finds himself stranded and completely alone with no way to even signal Earth that he's alive—and even if he could get word out, his supplies would be gone long before a rescue could arrive. Chances are, though, he won't have time to starve to death. The damaged machinery, unforgiving environment, or plain-old “human error” are much more likely to kill him first but Mark isn't ready to give up yet. Drawing on his ingenuity, his engineering skills — and a relentless, dogged refusal to quit — he steadfastly confronts one seemingly insurmountable obstacle after the next. Was he able to survive? You will have to head the book for that.

I will be ending this list now, you can always surf the internet for more suggestions. Till then, adios amigos and keep reading!

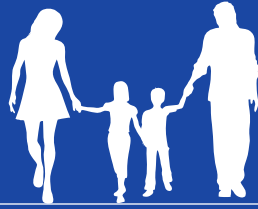

**Kyna Marwah**

Class 11A

# Family

It is the best gift from God,  
If you don't have it then living a life is very hard.  
Everyone in a family is an important part,  
Even if you encounter failure, they help you a new life to start.

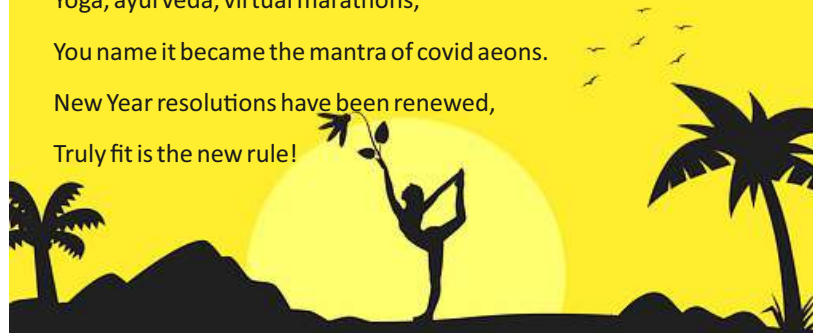

Of course there are some fights,  
But they don't catch up to any tall heights.  
In many families there are many fights,  
But inside their heart there is an ocean of love and care  
Which for all of us is out of sight.

Many people think that money is the best thing,  
But if you don't have a family, for who are you earning?  
Family is the best,  
With them, you can pass the test.

**Arnav Raj Varshney**  
Class 7C

# Fit India

New Year, new beginnings and hope,  
All crushed with a blow.  
The pandemic brought the world to a standstill,  
Who could have imagined human touch to be spreading the ill?  
Undeterred, unapologetic human spirit,  
Turned around the pandemic through human grit.  
Yoga, ayurveda, virtual marathons,  
You name it became the mantra of covid aeons.  
New Year resolutions have been renewed,  
Truly fit is the new rule!

**Kasheka Sehgal**  
Class 11B

# the gita

The Gita is one of the holy books of Indian culture. The setting is just before the famous Kurukshetra War. The great warrior Arjun was overwhelmed by the armies and commanders. It is because he couldn't bear the notion of fighting and murdering his teachers, his relatives and friends.

Then, after admitting his confusion, his friend, Krishna (who was also his charioteer and God himself), guides him to show him the right path. Many people might think of it as too long for us common folk to read. They think of this conversation as meant only for elites.

After that admitting of confusion, Krishna kick-starts a conversation between them. It is our duty to be devoted to our cause unconditionally and follow it. It also states that we must avoid attachment to material things, desire and greed. These worldly things are just a big illusion that delude us from seeing the real picture. We must try to identify the real picture, because, ultimately, we are going to unite with God. The Gita doesn't even force us to believe in God, just being a virtuous person is enough.

In the busy lifestyle of most people nowadays, this is very useful in getting peace of mind. It is a major factor in debunking various social stereotypes that spread hate among us all. This is one of the world's masterpieces with which you can make a big change in society.

**Jayesh Raj Kumar**  
Class 6A

# The true friend

Always wanted to have that friend,  
Who would stay with me forever.  
Who would never let our friendship end,  
And with whom I could share everything whatsoever.

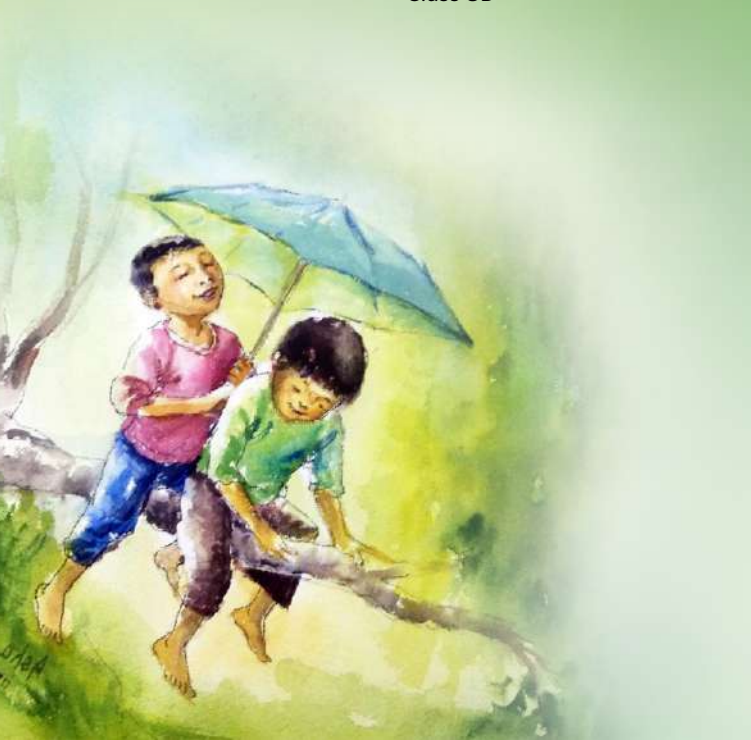

Over the years I have learnt,  
That "forever" doesn't really exist.  
Postings and fights have confirmed,  
That only memories can now be reminisced.

But then I found someone,  
With whom I enjoyed every moment.  
These moments had outdid,  
All the times of disagreement.

Never did I have such an awesome time,  
With her who never made me feel bad.  
She was the blue sky to my sunshine,  
And she was the truest of the friends I ever had.

**Avneet Kaur**

Class 8B

## Life From The Eyes of Classroom 7-A, During The Covid-19 Pandemic

**W**hen my Class Teacher told me to write an article for the school magazine, I was somewhat surprised. Reasons being that 1) I never really gave an actual piece of writing for the school magazine (usually all my articles were about a trip somewhere). And 2) The only memories I had of writing were half-completed novels and silly poems I wrote as a 9-year-old. Well, I eventually decided to do something for school and not just because I had to hand-in something or the other, but because I wanted to.

So this is what I could come up with:-

7-A: Oho! There they go again! Chemistry Lab: I BET YOU THREE TEST TUBES THE SCHOOL WILL OPEN NEXT MONTH!  
Biology Lab: Oh! I BET YOU A MICROSCOPE IT WON'T!

7-A: Shut up, you both! (Sigh) These nincompoops I've been stuck with! Oh! When will all the students come! By the way, I'm Class 7-A. It's been such a long and lonely school year! Thank goodness in the end, a few teachers started coming, and the authorities allowed some classes to begin! Otherwise, I don't think I would've withstood this solitude and these daily disputes!

You know I spoke to the football ground, and he said he overheard the gardener say that the school will re-open for all the classes next year? Is that true? I sure hope so! The library and the auditorium are in a different building, so they step aside from the chaos. I think they must be fighting their own conflicts!

All-day long, the only thing I do is resolve these general issues. Yesterday whole evening I was busy solving issue between 7-B AND 7-C (regarding who's the best classroom) . The Science Park is quite peace-loving and tends to stay away from all the disorder! Yesterday, the stairs got into an immense argument with each other! On some good days, everything is essentially quiet and, I can finally get a good night's sleep! Honestly, I miss all the students and hope they all come back soon!

Till then, I'll have to do with these labs and classrooms!

**Swanvi Sasson**

Class 7A

# SUCCESS

Love what you do, do what you love.  
Not because someone's asking you to,  
But because you want to.  
Not because you've got to  
But because you love to.

Dream big. Don't be scared  
The Journey while exciting, is exhausting.  
But the rewards? Totally worth it.

So turn work into play. Struggle into fun  
Ride on unhindered performance.

Do it once, do it again  
Let your journeys be exciting  
And your quest, endless.

**Trisha**  
Class 9C

## Time And Tide Wait For None

How often do we find ourselves running out of time? Many of us even feel that we haven't had enough time to complete our work. We are always RUNNING out of time, aren't we? But we have to accept the fact that there are 24 hours in a day given to all of us, equally. It is on us how we use that time. We need to learn to use our time efficiently. This time once gone will never come back.

As a saying suggests, "Time once wasted can never be recycled". Therefore, it is important for us to understand the need to value and manage our time. Even Mother Nature is bound by time. From the movement of planets, to changes in seasons and the movement of tides in the high seas, all of this is very much timed; and that's how a perfect ecological balance has been maintained. Time management will always lead to success in our lives. The ability to manage our time well is called punctuality.

Punctuality is one of the most important building blocks of our lives. Being punctual also helps us to make a good first impression at school and at work as well. It is important to be before time than to be late. Punctuality helps us to keep our work under control always and at the same time cherish our leisure moments.

Thus, we need to understand the significance of time and time management. We need to focus on the present, because the past is gone, the future is unknown, there is no point thinking about it. What we have is now, the present, to be able to save and conserve this precious time as it once gone will never come back.

That is why it is said that, "Time and tide wait for none"!

**Snigdha Sehgal**  
Class 10C

# MENTAL WELL-BEING AND COVID-19

Aristotle once said, “Man is a social animal”, this means that humans are expected to live in groups from the moment they are born. These various groups and forms of social living play a vital role in their lives and affect their mental health in various ways, positively or negatively. Group cohesiveness has an important influence on one's mind and behaviour and when this component of life is hampered, it can invoke high levels of stress in him/her.

When the world was hit by a life-changing pandemic, governments around the globe took drastic measures to control the spread of the coronavirus and safeguard its citizens. Lockdowns, strict isolation and quarantine were some of the many changes which were introduced. People were confined to their homes for multiple weeks which led to intense mental stress. Everyone's day-to-day activities were disturbed and the resulting economic recession has negatively affected many people's mental health. Various psychological problems emerged as people were forced to reduce social contact and activities. In a recent survey conducted by the Indian Psychiatry Society, there seems to be a sudden rise in those suffering from mental illness which has reached up to 20 per cent. According to this survey, at least one out of every five Indians is suffering from mental illness.

Progress in mental health services has been quite slow in most low and middle-income countries. Certain barriers including the existing public-health priorities and funding, the low numbers of those trained in mental health care, the lack of public knowledge etc. pose a challenge to the mental health care delivery system.

In such challenging times, mental health awareness can play a crucial role. Simple behavioural changes and mindfulness can make a significant impact towards positive mental health. Mental health awareness campaigns have yielded positive outcomes. Some of the strategies undertaken to target awareness and address the stigma around mental illness include participation by family members, sensitization to treatment and social inclusion. Digital mental health care services such as online treatment, assessment and counselling are ways through which people can be helped and provided support from the comfort of their own home, which is beneficial for them in such grave times. With rising awareness, it can be expected that early recognition and access to treatment will follow, as will the adoption of preventive measures and government funding.

Thus, we now have a new opportunity to explore the paradigm of mental health awareness as a means of combating stigma, enhancing prevention, ensuring early recognition, and also stimulating simple and practical interventions within the community.

**Mannat Kashyap**

Class 11A

## Teachers

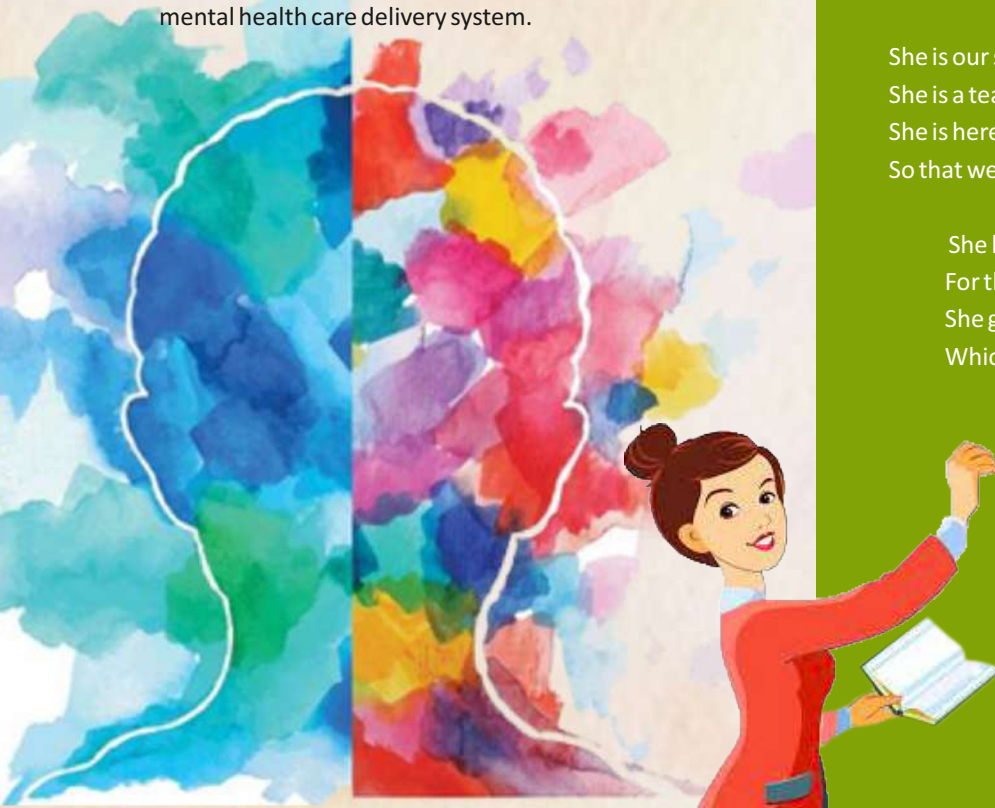

She is our second mother,  
She is a teacher like no other.  
She is here to give us education,  
So that we get success in achieving our ambition.

She loves us from the bottom of her heart,  
For the school she is an important part.  
She gives us good values,  
Which we shall always use.

She is the one with plenty of knowledge,  
She can teach from class prep to a college.  
She is one of the best in my life,  
She even taught me how to survive.

**Arnab Raj Varshney**

Class 7C

# The Mortal Instruments

Jonathan Christopher Morgenstern

A child left all alone,  
As the darkness in him grows.  
None could tell the pain pent-up,  
The father's footsteps he follows.

A devil grown from the fallen angel,  
A different road he took.  
A trail of scars and violence behind,  
So torturous to even look.

Not long ago, did he take an oath,  
To raise Hell if not move Heaven.  
From the torment and agony hung heavily on his heart,  
This desire for blood was his little haven.

His fury shall strike down from Heaven,  
From Hell shall rain down his wrath,  
Cursed by family, scorned by friends,  
Alone he strides his chosen path.

Solely he reigns in red and bronze,  
For enchantments to call and wicked powers to  
summon.  
All world shall be raised in the name of a boy,  
Whose joy rests in war and destruction.

**Rhea Ruth Kuriakose**

Class 7B

## "The fun we had"

The system of teaching is peculiar in its own way and the students enjoy it in the same manner. They are keen on learning new things with a new day. Their interest in studies while sitting in a class continues on till they reach home. With a new session they turn into a conscious body taking resolutions for the new start. Some have a feeling of eagerness for the last period getting over on Fridays then the trip back from school was a journey we liked the most. They are a lot of elements why they really want the normal way of schooling. The talk with our friends in the break time were some of the most important meeting we ever had. Our hesitant feel of reaching school on Monday mornings which drastically flipped after we saw one of the face which we were familiar of. The classes we had were very familiar to us where getting a praise from the teacher or having complete work was a blessing to us. It was very less often that we missed upon a concept in any subject but got clarified later on and so on but the things got changed very spontaneously.

The school got shifted to our homes and so was our mindset towards schooling. In the initial days it felt like we had been given an extra vacation but it was no soon that we realized that it would lead on to a whole new system that has never been in a prototype stage and was getting directly tested upon. It was a totally new and diverse experience for both the teachers and the students. We everyday learned something new and different by the system that had already been in existence between us. We had a new process of submitting our assignments and teachers had a new

experience evaluating us on that basis. The early days had been interesting but our feeling of reluctance changed gradually. We had a lot of time which many utilized efficiently but still it was in large amount which can't be spent through. We never got to know how our previous normal changed to the new normal.

Now we are at such a point in life where we can say that "what a fun we had". We had fun in every part of our life, waiting for the buses at the stand in the early morning, the morning assemblies and the school activities that we miss upon. This all happened in context to the pandemic the times changed, the busy roads were now haunted, the nature and the rivers showed their actual potential, the lifestyle of the era was changed a lot by the pandemic affecting the minds of all including the school going students in the previously mentioned ways. The pandemic tested the education system of our country by making us rely on the online mode of studies and evaluation.

"At last the days we miss upon were the real fun we had"

**Shashwat Upadhyay**

Class 9C

## The Groundbreaking change from Notebook to Laptop

In the wake of the covid-19 pandemic, schools have been shut all across the world. Globally, over 1.6 billion children in 195 countries are out of their classrooms.

The closing of schools did not stop education.

Online education comes in shades of grey. There have been successful transitions among the educational institutions to adopt the online platform of learning. The COVID-19 pandemic has defeated the centuries-old tradition that students traveled to a physical institution to learn. Now, in many places, school and university classrooms are on laptops and smartphone screens, and the Internet has replaced physical books. A survey conducted by UNESCO revealed that the use of digital content in education was only 0-20% before the pandemic which has culminated into a boom of 60% during the pandemic.

The pandemic has disrupted OUR education system that, many assert, was already losing its relevance. In his book 21 lessons for the 21st century, scholar Yuval Noah Harari outlines how schools continue to focus on traditional academic skills and rote learning, rather than on skills such as critical thinking and adaptability, which will be more important for success in the future. Hence the present scenario is a catalyst to create the new education system.

A landmark achievement in this direction is the launching of the PM e-VIDYA Platform, with 12 new DTH channels, one for each class to reach out to all stratas of societies.

Some researches show that on an average students retain 25 to 60% more material when learning online compared to only 8-10% in a classroom. E-learning requires 40 to 60% less time to learn than in a traditional classroom setting.

The shift from notebook to laptop, not only replicates physical classes or lecture through video capabilities, but also uses a range of collaboration tools and engagement methods that promote inclusion, personalization and intelligence. Studies have also shown that children extensively use their senses for effective and permanent learning.

A lot of issues are attached to online education but we cannot ignore the perks of it in times of such crisis. We can always have solutions by fixing the glitches. I here by reiterate that moving towards laptops and mobile screens for learning is no more an option it is a necessity.

Class 7B

# Smile

*Sometimes I like to leave my problems behind,  
Leave them behind and rise up  
Create a barrier between the hurried winds of time  
Take a minute, breathe in and smile*

*Every day I hope to convince you to join  
Close your eyes and rise up  
Ignore your problems, if only for a little while  
Take a minute, breathe and smile*

*Today I advise to join me in the clouds  
Even just for a moment, rise up  
Today I advise to sit on your stile*

*Take a minute, breathe it all in and smile.*

**Pia Mehra,**  
Class 11A

# *Effect of* **lockdown** *on the mental well-being of people*

The Lockdown due to the corona virus pandemic has brought many changes to our lives. For some it had a very good impact as they got time to spend with their family and friends, but some could not enjoy such wonderful sides of the Lockdown, they only saw the dark side. We all know many people lost their livelihoods and many people had their salaries reduced, the children who were giving their board exams were insecure about their future, people who never spent much time with their families were now forced to as there was no other option, people who had to move to a different place to work were now stuck there, away from their families. All these things have created a sense of insecurity in the people's mind and have led to depression, uncomfortableness and anxiety as a circumstance. When the adult section of the society is finding it so hard to cope then what about the younger generation? How are the children able to cope with the drastic change of life in the Lockdown. When today's children and adolescents grow up, will they see themselves as a "lost generation", whose lives will forever fall in the shadow of a global pandemic? Since the poor will be hardest hit by all of these effects, lockdowns are expected to widen the existing inequalities across the globe, with repercussions for years to come. Not all children will be affected in the same way – leading some experts to fear that this will widen the (already highly significant) gap in educational achievement between richer and poorer families. While governments are trying to encourage home schooling, it relies on a good computer and reliable internet connection to be able to access the school's resources, and a quiet room to study. Home schooling also assumes that the parents themselves are sufficiently educated, and have enough time, to be able to help with the lessons. Many children who live in the remote corners of the country, who could not even get the basic school education properly, how would they be able to study in the Lockdown? The don't have any access to electricity or Wi-Fi and many have never even seen a computer in their lives. Most don't have the appropriate environment to study at home. Most children went to school because of the mid-day meal scheme where they got food for one time in the day as most could not get enough food at home. The future of these children is in darkness. Now these children, neither get food nor do they get education these children probably they would never get to go to school again. These children may get subjected to child labour and would never even know that what's happening is wrong, they may not get the right guidance and can get into the harmful practices of drinking and taking drugs. There are many children who probably had potential, but due to these circumstances cannot pursue their dreams this has a very bad impact on their as mind they may get depressed and anxious for their future and this can have adverse effects in the long run. Our society does not give much heed to the dangerous mental conditions like depression. Many do not get the right help from therapists because they don't know how to reach out for help. These problems did exist in the past, but never came to light due to our negligence, the pandemic came as a warning and maybe a light of hope that people can and should reach out for help.

**Sangya Raj**  
Class 8B

## **Fitness** **Beat the Pandemic**

Boredom, boredom everywhere  
Playing video games and witnessing the pandemic  
Where to go? What to do?  
We try our best to struggle through  
Don't just listen to the negative news  
Get up and go for early morning jogging so wear your shoes.  
Eat some healthy foods and strengthen your immunity

Talk with distance and don't touch things in community  
Do some yoga and do some aerobics  
If you have a cough, take some syrup sips.  
These steps of fitness will beat the pandemic one day for sure.  
It's the world's biggest dream  
When mankind defeats the pandemic and every eye has a gleam.

**Ashutosh Pandey**  
Class 6B

# My Life in School

Hey you - yes you, the one in the blue uniform. You, who doesn't want to attend school, crying and making nuisance for your parents, yes, I am talking to you. Listen, if you are going to keep up with all that drama of yours, making impish excuses like "Mommy, I have a stomach-ache", "Mom my head's paining; I don't wanna go to school, please", or "Dad, I got injured while playing yesterday, so please no school today" and such flimsy excuses, you have no idea what you're missing. Just stop all of it my dear friend, and read on. Because believe me, my dear reader, school is a road to heaven. Sure, it passes through a lot of obstacles before that, but then where's the fun without challenges. Make no doubts that you'll fail (maybe a lot in the eyes of the teachers: smirk:) but then life is no joyride, is it? Hey, don't turn the page on me now – and hold on for some time. But before you go further let me clarify, this isn't a memoir from a topper or a teacher's pet. No, this is but a rebellious, headstrongly impish, and a rowdy backbencher's last chance to get his name published in the school magazine, and also a chance to write a meaningful article. So, in essence killing two birds with one arrow, because my arrow is like the one Yondu had (:wink:: wink:).

"Get up and go to school!"; any young school-going teenager's thought when he hears this is, "Oh God! Not again, please", thoughts of all those enigmatic, placid teachers sending in and assigning an implacable amount of homework, desisting you from having fun, talking, borrowing or lending, gossiping, and what not in between the class with their grating voice. Making you feel embarrassed in front of your peers. See, my dear reader this is not at all true, and is a figment of that corpulent mind of yours'. Sure, their voices are grating, their words, a bit harsh at times, and the homework is in implacable amounts. But the rest is in your head; all the teachers are trying to do by admonishing you is to ameliorate you, my friend. You see, teachers aren't there to embarrass, humiliate, or trouble you. Teachers are like candles who burn their own wax to light the way for us, sure their fire can burn some of us a little sometimes. Teachers are the ones who have taught us, build us up, and helped us grow. It's their job to correct us when we are wrong, and they never shy from praising us when we do something correct. They are the ones who prepare us for the unknown future, setting us on the apt directions to face life. And I can say very proudly that today whatever achievements I have attained, all my teachers have had a big part in helping me realize them. So yes, I

would recommend you not to bad mouth your teachers whatever or however the situation or the case may seem to be (: sigh:).

Another beautiful thing that happens at school is that people find FRIENDSHIP. A bond, one so strong that it can defy logic and everything. People have done a lot just because of friendship. But you have to be careful because there are a lot of people who are backstabbers and fake. I know so because I have had a personal experience when someone I considered to be a friend turned out to be a two-timer. You see, these people gain your trust by being sycophanting. But he did teach me the lesson of Trust and the meaning of Friendship. I had another friend, who I always use to bicker with, engage in arguments and fights but as fate would have it, he turned out to be my true friend, an ally who was ardent, conscientious respecting, and benevolent. You see good friendship isn't made; it is forged. It's heated in the furnace of trust, hit bone shatteringly hard with adversities, and cooled instantly in the freezing waters of loyalty, because the metal of friendship needs to be stoic to face anything and yet stand strong, unscathed as though nothing happened

Another significant aspect that one experiences in the school is 'Competition' - both in the playground and in the classroom. These competitions teach a lot as they are our practical teachers giving us a real-hand experience of socials skills, teamwork, bonding with others, recognizing own strengths and weaknesses as well as of our team members. But above all, competitions help in teaching sportsmanship - that it doesn't matter if you win or lose; what matters is the spirit of the game / competition. Winning or losing are part of the game but how fast can you get up after falling and how much fire of the 'Never say die' attitude burns inside you – is what makes a person a true competitor.

So, to all those who still think that school life is boring and a nuisance, there is your proof above and I like to dedicate a line to everybody in hinglish in the end.....

*"School life ek alag kisam ka dariya hain, daro mat dupki laga kar to dekho na jane konsa moti apke haat lag jaayega"*

To sum up:

All this seems fun and games while reading, so if you want to experience it go to school. FULL STOP.

## *The Tale of* **2020**

Eating a bat wasn't very satisfying after all,  
Got us locked in our homes all day long.  
Never thought we would see scared look on people's faces,  
But here we are scared by the increasing cases.

What's the point after all to rue,  
But you can't go to the mall and neither to the zoo.  
Wandering all day long has made us lazier,  
But the online classes have made studying easier.

A cough or a cold,  
Makes us look old.  
These my friends are symptoms of corona,  
Not a city to spare, it even reached Barcelona.

Work from home,  
More like isolation alone.  
The virus from China,  
Paid a toll even on our stamina.

From this virus we all will emerge as winners,  
And back we go to parties with snacks and dinners.  
In the end, I must request,  
Stay home and get your corona test!

Class 11B

## **2020** The year that was...

The year 2020 will forever be a unique year in our lives. One that will never be forgotten through the pages of history. Countries of the world going into Lockdown, schools shut for an indefinite period of time and many unusual things going on. I felt that the 'Lockdown' period could be a time of honing our skills.

Although lazy at first, I managed to enroll myself in many technology oriented courses to increase my knowledge in one of my favourite fields. Learning new software, experimenting with new systems, becoming a part of the Linux community as well as a privacy 'advocate', developing web pages, I still can't get past the fact that I have spent an entire academic year from the 'comfort' of my home! 2020 was a real learning experience. I learnt some new culinary skills and even perfected the skills of baking christmas cakes for family and friends. I learnt to play the keyboard under the guidance of my parish priest and lead the congregation by playing hymns for Mass. I also helped in organizing online competitions and participated in some too.. I not only gained knowledge in areas of my interest but also have been awarded certificates for the same. I am now more confident in the fields that never fail to fascinate me.

With that said, I am very grateful to the principal and all the staff members who worked tirelessly and overcame the struggles of the new online education system to reduce the impact that the pandemic had on our academic year. I really look forward to this last year of mine in this wonderful institution. I will always cherish the fond memories of my school which have been etched in my heart from class Prep.

**Jonathan D'Lima**  
Class 11B

## *the Best of* **My Dreams**

It's the day for which every child wishes,  
or maybe the day which  
every child makes his mind shushes for. Yes, it's the best of my dreams,  
in which mankind defeats Covid-19 and their eyes have a gleam.

It's the day to wake up early,  
and pack the school bag for sure.  
Going to school and sometimes realizing the closed school gate,  
and making new excuses for coming late!

Go to school and learn new things,  
study and study to grow our knowledge wings.  
Even sometimes talk during the classes with our friends,  
and getting to see the teachers' angry lens!

Waiting the whole day for the last school bell to ring,  
when the children 'It's to home time!' sing.  
But this is only possible after mankind defeats Covid-19,  
or it's impossible!

**Ashutosh Pandey**  
Class 6B

## THE STRONGEST SURVIVES

Life is a game,  
With rules that no one knows.  
At each level it gets complicated,  
With higher highs and lower lows.

Sometimes, I have failed a level,  
With great ordeals, feeling to depart.  
But to grow stronger and survive,  
I knew I had to restart.

I have fallen hard,  
But can get up again.  
What do we know about life?  
If we haven't faced any pain!!

We play to win,  
But what if we lose?  
Trying to be fine,  
But actually getting blues.

Life is a maze,  
With a turn at each step.  
All we have to do is to walk the right way,  
And never lose our pep.

At times when it gets confusing,  
And we may feel alone and frightened,  
Know that our dear ones,  
Are waiting for us at the other end.

So take a moment, breathe,  
And ignore all the noise.  
We never know how strong we are,  
Until being strong is our only choice.

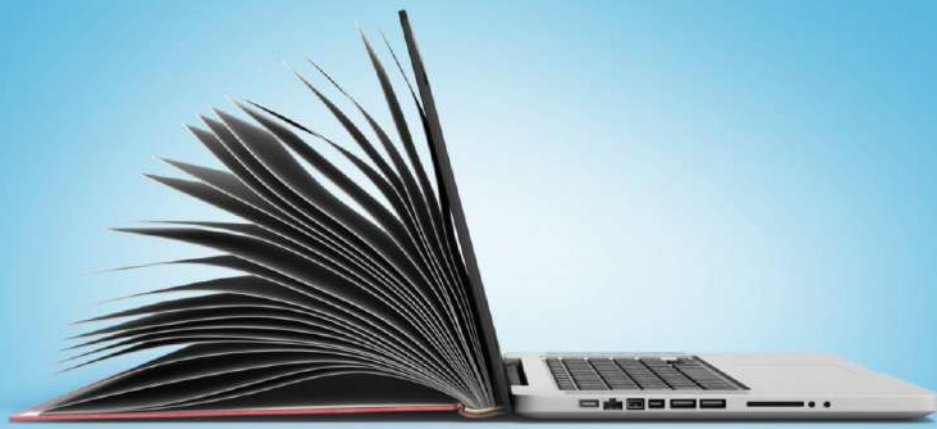

My spirit is often diminished,  
Putting everything at stake.  
But my emotions soar  
So I accept to bend but not to break.

Everyone says, "Life is easy",  
But truly, living it, is not.  
Life is a battle,  
Which has to be well fought.

Loved ones have high hopes from me,  
So how can I let them down?  
I have to win my tussle,  
I have to win my crown.

And even though it's tough,  
And I may struggle past it all,  
You may see me struggle,  
But you will never see me fall.....

**Tulika Harshvardhan**  
Class 8A

## Online Schooling amidst the Lockdown

When the Covid-19 Pandemic struck the world by surprise, the first thing that was required was to keep us safe was by social distancing, wearing a mask correctly and a lockdown on all activities. And one of the most important things that was abruptly halted was schooling.

Schooling is an important part of our lives, and if we weren't able to continue it, it could potentially make this and possibly the next generation suffer. Free passes were also out of the question, since any gap in the education process at any level would definitely hinder the academic progress of students.

Suddenly, a simple idea was introduced to combat this situation- Online Schooling.

Instead of sitting in a classroom with a bag, we sat with a camera and a microphone to communicate with peers and teachers on apps like Zoom, Teams and the likes. Instead of running from class to class, we were just a click away from entering another class. Everything was virtual.

This was amazing, as no matter what distance teachers and children were from each other, either at home or anywhere else for that matter, as long as they had a device, they could attend interactive, live classes.

This brings us to the drawbacks of online classes. The less privileged students don't always have the required devices and thus, are unable to attend online classes. So, they either have to self study, or miss out on classes completely and the precious teacher guidance in both circumstances. And if there are two children and one device in a household, it won't always work out due to simultaneous schedules of classes and exams.

During examinations, resorting to unfair means becomes easier and more tempting due to lack of monitoring.

So yes, while online schooling is a lifesaver currently, like all things, it also has its own drawbacks.

Lesson learnt: Stay away from bat soup.

Class 7B

# The Cold Gaze of The Camera

Oh, the cold gaze of the camera!  
It has made humans like animals in a savannah.  
It never gives a moment of privacy, it leaves us exposed,  
We can't keep a secret, the doors to our life are never closed.  
Hush! Don't speak too loud,  
For nearby it hovers like a dark cloud.  
The cold, ever flashing, ever clicking lens,  
Capturing us, our family and our friends.  
The era of the camera is the era of darkness,  
Which captures our life, our failures in its eternal stillness.  
The era before the camera was the era of light,  
When memories were made on the film of one's heart with no fright.  
The camera lays bare man's every secret,  
To an extent where not even our loved ones could keep it.  
In the world of the camera, fame is a killer,  
Pictures of famous people are the camera's greatest thriller.  
Fans, paparazzi, journalists, vloggers and others,  
All compete for the best picture with one another.  
No one cares about the person being bothered,  
Whose life with these flashing lenses is being smothered.  
Go out into the wide world and enjoy if you dare to,  
Face the crowds standing there if you can bear to,  
But beware, it will be there waiting like a chimera,  
The cold, flashing gaze of the camera.

**Sauvik Sharma**  
Class 9

# TEACHER

*The Future Creator*

AS SOON AS YOU STEP IN,  
EVERYONE BECOMES AN EPITOME OF DISCIPLINE,  
ALL OF THEM WITH IMMENSE SILENCE,  
OH! SORRY, IN GENERAL TERMS,  
PIN DROP SILENCE.

GREETINGS EXCHANGE WITH RESPECT,  
YES, YES, DO NOT SUSPECT,  
NO MATTER HOW NAUGHTY WE ARE,  
WE RESPECT YOU FROM THE BOTTOM OF OUR HEARTS.

THIS IS THE SCENARIO, OF EVERY STUDENT'S AND TEACHER'S  
MORNING,  
NOT ON THE HOLIDAYS THOUGH,  
'CAUSE THEIR AFTERNOON ARE OUR  
MORNINGS,  
ON A SERIOUS NOTE, YOU ARE THE ONES

THE ONES WHO STRENGTHEN OUR FOUNDATIONS,  
THE ONES WHO TEACH US ABOUT,  
LIFE AND ITS LIMITATIONS.

THE ONE'S WHO CREATE SKILLED  
GENERATIONS,  
YOU ARE THE TEACHERS,  
WHO PLEDGE TO NURTURE,  
THE PEOPLE AND THE FUTURE,  
AND MAKE THE WORLD BETTER.
